

Bike Challenge

150 Years – 150 Moments – 150 Days

Andreas Lamping, Chief Legal Officer invites you to accept the challenge **to cycle 150 days**. Not only the way to work counts, but also trips or errands that you do by bike in your free time. This action costs nothing, is good for the environment and good for your health. At the same time, you can actively help shape our 150 Moments anniversary with your contributions/photos.

Let's go!

I am individual participant team participant
